

Model ATT-RS-5500 with Fracture/Injection Tool.

Designed specifically to fracture and feed the soil surrounding trees without harming the root system.

Key Benefits

- Increases water absorption
- Reduces surface drainage
- Reduces water consumption
- Optimizes root growth

System Features

- Steel Construction
- Storage Area
- Injection Tool (included)
- Fluid Tank: 200 gallons
- Tank Mix System
- 1" Fluid Pump
- Air Hose & Reel
- Air+Liquid Hose Set
- Air+Liquid Hose Carrier
- Filter, Regulator & Lubricator
- Hour Meter
- Electric Start
- Spare Tire
- LED Trailer Lights
- Highway Use/disk brakes
-

System Specifications

- Dimensions: 16'L x 7'W
- Weight: 3400 lbs dry
- Compressor: 26hp
- Air Pressure: 150 psi
- Working Pressure: 100-150 psi
- Air Hose Reel: 70' (3/8" hose)
- Tire Size: ST225/75R-15
- Hitch: 2" ball

Specifications subject to change without notice.

Pneumatic Rewind 300' drench reel

Kohler driven rotary screw compressor

Typical Uses
